

Silicone paste A, EssentQ®, for lubrication at high temperature

Identification

Taric code: 3910 00 00

Applications

in lubricant compositions, protective agent (in the electronic industry, moisture), corrosion inhibitor. for greasing at high temperatures.

Specifications

identity.....passes test

Physical data

- Spec. Density: (25 °C) ~ 1 g/cm³
- Solub. in water: (20 °C): insoluble
- Flash point: > 400 °C

Transport/storage

- 10°C - 30°C
